WORKSHOP NEWS

A periodic newsletter will be sent to class participants via email. Be sure that Jan Hale receives your correct, current email address!

A list of recommended tools and things to bring will be sent.

TRY THIS AT HOME

Your take-home bag from this workshop includes a quantity of recommended materials for topics covered in the workshop. This allows you to continue exploring the class topics without need for purchasing supplies.

Also included is a complimentary CD with pdf format tutorials, useful information, and interesting Web links.

ABOUT WES WADA

Wes has been a fly fisher and tier for over 35 years. He learned the ropes among a colorful circle of fly fishers in southern Idaho.

He was a professor of design and photography for 13 years. Wes has transformed his teaching to coach creative fly tying and to build the teaching Web site FlyFoundry.com

Wes is a long-time mainstay for the fly tying programs at Central Oregon Flyfishers in Bend, Oregon.

"The fun and enjoyment of creating productive original flies is a huge part of my love for fly fishing. It's a tremendous thrill to create a fly that captures large, wary fish.

Teaching these creative techniques to others, is personally rewarding."

WORKSHOP EMPHASIS

Simply put, this is a design-oriented, problem solving class, useful for all fly tiers. Wes's main love is stillwater fly fishing, but the tips and techniques covered will benefit all fly fishing interests. Guaranteed you will enjoy a fresh perspective for your favorite pasttime.

Class limit: 20 To register, contact Jan Hale at lilybill1@yahoo.com or call 530-275-9668
